

## WHAT ARE THE AIMS OF A MOBILITY PROJECT?

Education, training and youth activities play a key role in providing people of all ages with the necessary means to participate actively in the labour market and in society at large. Projects under this Action promote transnational mobility activities targeting learners (students, trainees, apprentices, young people), and staff (professors, teachers, trainers, youth workers, and people working in organisations active in the education, training and youth fields) and aiming to:

- support learners in the acquisition of learning outcomes (knowledge, skills and competences) with a view to improving their personal development, their involvement as considerate and active citizens in society and their employability in the European labour market and beyond;
- support the professional development of those who work in education, training and youth with a view to innovating and improving the quality of teaching, training and youth work across Europe;
- enhance notably the participants' foreign languages competence;
- raise participants' awareness and understanding of other cultures and countries, offering them the opportunity to build networks of international contacts, to actively participate in society and develop a sense of European citizenship and identity;
- increase the capacities, attractiveness and international dimension of organisations active in the education, training and youth fields so that they are able to offer activities and programmes that better respond to the needs of individuals, within and outside Europe;
- reinforce synergies and transitions between formal, non-formal education, vocational training, employment and entrepreneurship;
- ensure a better recognition of competences gained through the learning periods abroad.

This Action also supports international mobility activities from or to Partner Countries in the fields of higher education and youth. This action also contributes to cooperation between the EU and eligible Partner Countries and reflects the EU external action objectives, priorities and principles:

- enhance the attractiveness of higher education in Europe and support European higher education institutions in competing on the higher education market worldwide;
- support the priorities identified in the "New European Consensus on Development"<sup>22</sup> and the "European Higher Education in the World" Communication<sup>23</sup>;
- support the internationalisation, attractiveness quality, equity of access and modernisation of higher education institutions outside Europe in view of promoting the development of Partner Countries;
- promote the development and external policy objectives and principles including national ownership, social cohesion, equity, proper geographical balance and diversity. Special attention will be given to the least developed countries as well as to disadvantaged students from poor socio-economic backgrounds and to students with special needs;
- promote non-formal learning and cooperation in the field of youth with Partner Countries.
