Application form in English

1. Provide a general description of the future project’s intended focus and aims. Describe how a future Linnaeus-Palme Partnership project may contribute to a broader resource base for international development cooperation and increased quality in higher education through international exchange and cooperation. Briefly describe how your future collaboration relate to Agenda 2030 priorities.

2. Describe the existing contacts with the partner and how and why you intend to develop these contacts through planning visits.

3. Describe how your academic exchange will help you to gain your future collaboration.

4. Describe the activities on each planning visit and how they will strengthen the parties’ capacity to conduct a high-quality project in the future. Link the description to the above focus, aims and results. Describe the activities before, during and after the planning visits. Are there any risks that could complicate implementation and how can the risks be prevented?

5. Describe all the participants’ professions and provide a motivation for their roles in the planning process – administrative, educational, communicative, etc.

6. Will you apply for support for participants with disabilities? If yes, remember to apply for the support before the end of this year.
