

Linnaeus-Palme partnership 2020

Questions: first-year application

1. Describe the project's purpose and objectives. Also describe how the project will contribute to strengthening the partnership and meeting the mutual need for development.
2. Describe the project's relevance to the implementation of the 2030 Agenda for Sustainable Development. Motivate which of the 17 goals is/are most relevant.
3. Describe the main activities and how they contribute to the project's objectives.
4. If you are applying for funding for activities in addition to project exchanges, please provide detailed reasoning for how they relate to the project's objectives and how you have calculated the costs. If you are not applying for funding for activities in addition to exchanges, please write "not relevant".
5. Describe both parties' capacity to undertake the exchange. How will you ensure that granted teacher exchanges take place? What preparations and what support can your higher education institution offer participants during the exchange?
6. Which challenges and success factors do you see in work on widening participation in higher education at your department and/or university?
7. Present a risk analysis in which you describe the risks you see, their potential consequences for the project and measures to counteract them. Analysing the risk of corruption is obligatory.
8. Describe how both parties will evaluate the project and how you will follow up the results of the evaluation.
- 9a. Will any of the funding be transferred to the Palme university?
- 9b. If you answered yes to 9a – State the maximum amount that you will transfer. Describe the routines for the transfer and how you will ensure that the Palme university will comply with the terms and conditions of the Swedish Council for Higher Education (UHR). If you answered NO, write "not relevant".
10. Are you planning to conduct a project that requires an ethical review? Certification of ethical review must be sent to UHR. YES/NO

Questions: continuing application

1. Describe the results you have achieved in the project in previous years. Present what you have learned and the opportunities for improvement you can see.
2. Describe the project's objectives and motivate any changes to the original project. How does the project relate to the 2030 Agenda for Sustainable Development?
